PROFESSIONAL EXPERIENCE

AICTE Internship

january 2025 - february 20225

Blockchain Technology

Completed AICTE-certified internship in Blockchain Technology, focusing on the development of smart contracts using Solidity.

Gained practical experience in building decentralized applications (dApps) and working with Web3 technologies

EDUCATION

- **Bachelor's Degree in Technology (First Year)**

Current CGPA: 6.3 (no backlogs)

- **Higher Secondary School (12th Grade)**

Achieved Second Division

EXTRACURRICULAR ACTIVITIES

- **Tech Competitions & Hackathons:** Actively participated in multiple tech contests and college-level hackathons, winning several awards and strengthening problem-solving and teamwork skills.
- **Event Coordination:** Successfully coordinated 5+ college-level events with 100+ participants, ensuring seamless execution, logistics, and audience engagement.
- **Inter-College Representation:** Represented the college in external competitions, securing 2nd prize and demonstrating strong collaboration, communication, and public speaking skills.
